At this point, I would say either the 12<sup>th</sup> or 13<sup>th</sup> or the 19<sup>th</sup> or 20<sup>th</sup>.  
But even though we haven't seen the comments yet, I would assume they will be extensive.

**Subject:** NCHGW OU1 - Follow up

Hey all – I wanted to let you know the PRPs for New Cassel/Hicksville OU1 are due to give us comments back on the Remedial Design Statement of Work and Pre-Design Investigation Work Plan next Monday (5/2). I'll send their comments over once received.

Once we've taken a look over the comments, I am anticipating that it would be helpful to discuss.  
Do you guys have availability for such a discussion the week of May 9<sup>th</sup> or May 16<sup>th</sup>?

Thanks,  
Jen
